

FACT SHEET

Product Type: Herbicide

Active ingredient: Glyphosate

Concentration and Formulation: 35.6 w/v Liquid Solution

Mode of action: Systemic

MAG Registration Number: 3153

Available sizes: 90cc, 1 L, 3.5 L, 9.5 L, 19 L, 20 L and 200 L

Main characteristics:

EVIGRAS 35.6 SL is a post emergent non-selective herbicide that acts by systemic action. It contains a combination of surfactants that promote a better penetration of the product in plants. When sprayed on the weeds, it penetrates through the leaves and travels via the phloem to the inside of the plants until it reaches the root. This product inhibits protein synthesis and causes gradual yellowing until the plant dries and dies.

Crops to be treated:

Avocado (*Persea americana*), Coffee (*Coffea arábica*), Citrus (*Citrus spp*), Banana (*Musa spp*), African Palm (*Elais spp*), Pineapple (*Ananas commosus*). Corn (*Zeamays*), Rice (*Oryza sativa*), Sorghum (*Sorghum vulgare*), Cotton (*Gossypium hirsutum*), Soya (*Glycine max*), Melon (*Cucumis melo*), Mango (*Manguií-fera indica*), Chayote (*Sechium edule*), Watermelon (*Citrullus vulgaris*), Macadamia (*Macadamia sp.*), Sugar Cane (*Saccharum officinarum*).

Period of re-entry to the treated area:

It can be re-entered once the spray has dried on the treated surface.

Crops and their doses:

CROP	DOSE	RECOMMENDATION
Annual Weeds	2-3 L/Ha 4 oz per knapsack sprayer	The application should be made when the weeds are between 15 and 30 cm high, which is when the plants are actively growing.
Perennial weeds	3-4 L/Ha 6 oz per knapsack sprayer	The application should be made when the weeds are between 15 and 30 cm high, which is when the plants are actively growing.

FACT SHEET

If the low volume spray system is used, 1 - 15 liters per hectare (360 cc/ 18 liter pump) should be used in a volume of 60 to 80 liters of water.

Compatibility:

Do not mix with any herbicide, pesticide, oil or any other, except amine salts to reduce losses or damage caused by drift.

Precautions:

Care should be taken when applying this product to avoid damaging desirable plants and crops. Do not allow spraying to be carried by wind as it may cause damage to nearby crops, plants and other areas that are not intended to be treated. For handling, use full protective equipment: protective gloves, coveralls, boots, face shield. Do not eat, smoke or drink during handling.
