

FACT SHEET

Product Type: Fungicide

Active ingredient: Cymoxanil + Mancozeb

Concentration and Formulation: 76% WP (Wettable Powder)

Mode of action: Contact, Curative and Preventive

MAG Registration Number: 8702404

Available sizes: 500 grams and 1 Kg.

Rebeld 76 WG is a powerful fungicide, both preventive and curative, as it is a mixture with an innovative balance between two different active chemical principles: one systemic of the Acetamide group, which is Cymoxanil, and the other contact, of the Carbamate group, which is Mancozeb. It acts in multiple sites of the pathogen's metabolism, prevents the restoration of the pathogen by inhibiting the formation of sporangia, thus reducing the inoculation in the field. Its formula has been specially balanced to meet the requirements for the control of *Phytophthora infestans* in the conditions of the countries of the area.

Crops:

Rice, peas, broccoli, onions, sweet peppers, beans, melons, potatoes, cucumbers, cabbage, tomatoes and cauliflowers.

Diseases It Controls:

Blackout or late blight

Recommended Dose:

From 1.5 to 2 Kg per hectare. Apply to foliage and make 3 to 4 applications to the first symptoms. Apply at intervals of 7 to 14 days.

Period of Application:

7 days

Compatibility / Phytotoxicity:

Compatible with common pesticides. It is not phytotoxic at the recommended dose.
