

SUNXAMYL 24 SL

FACT SHEET

Product Type: Insecticide

Active Ingredient: Oxamyl

Concentration and Formulation: 24% w/v (liquid soluble)

Mode of action: Systemic. Contact.

MAG Registration Number: 8702381

Available sizes: 500cc, 1 L, 5 L and 10 L.

Sunxamyl 24 SL is a systemic contact insecticide-nematicide for agricultural use that is applied to soil and foliage for insect nematode control.

Insects to be controlled:

Leaf perforator (bucculatrix thurberiella), nematodes (meloidogyne, pratylenchus, heterodera, ditylenchus), rosette mite (phyllocoptrufa oleivora), trips (scirtotrips), aphids (aphis myzus), whitefly (trialeurodes bemisia), leaf miner (liriomyza), bulging flea (epitrix), leafworm (sibini apicalis), snake drool (prosa-pia sp), leaf hopper (empoasca sp), bedbug (bizus sp).

Crops to be protected:

Cotton, coffee, citrus fruits, celery, watermelon, melon, cucumber, ornamentals, potatoes, tobacco, tomatoes, bananas, bananas and grasses.

Recommended dose:

From 2 to 5 liters per hectare; 1 liter in 200 liters of water. Banana: 7.5 to 10ml per production unit. In drench: 1 to 2ml per square meter in 3.78 liters of water.

Harvest application period:

1 to 30 days depending on the crop.

Compatibility/phytotoxicity:

It is compatible with most commonly used pesticides, except calcium arsenate and chlorinated insecticides. Not phytotoxic at recommended doses.
